<sup>Starting in 2000, location categories were revised to improve reporting and reduce the number of instances "other" location was reported.
Installed intercepts include only those intercepts for which reports were received from prosecuting officials.
As of 1998, the average excludes those reports in which the number of persons intercepted, the number of intercepts, or the number of incriminating intercepts was not reported or could not be determined.
Some wiretaps terminated in a given year are not reported until a subsequent year because they are part of ongoing investigations.</sup>
